## Features

estestack 2000 exhibits a massive stacking capacity of various formats and media - up to 500 prints. With its easy to adjust entry height of 660 - 1100 mm, the stacker connects to all commonly used large format printers.

Many different media types, can be processed efficiently & reliably using estestack 2000.

It stacks documents that are even up to 1220 mm long and/or up to 1120 mm wide precisely.

Newly developed printer speed alignment, as well as the practical slide-in tray makes estestack 2000 a versatile device in your print shop.

### estestack 2000

estestack 2000 is the professional complement to all commonly used large format printers.

Technical plans and drawings in black and white or even full-colour posters are stacked accurately & precisely.

Increase your productivity through unattended job processing - even overnight.

Protect your high quality prints from a catch bag and become more efficient.

The stacker, that most professionals trust:

**estestack 2000.**
