

Epson Expression 12000XL Graphic Arts scanner

Large-format scanner with superior performance for graphic artists

Epson has created an affordable large format flatbed scanner offering easy batch scanning for increased productivity and versatile large-format scanning up to 12.2" x 17.2", the Epson Expression 12000XL-GA is ideal for graphic arts applications. Featuring 2400 x 4800 dpi resolution, Micro Step Drive technology and a 3.8 Dmax, this powerful scanner includes everything you need for professional-quality tabloid-size scanning. Its exclusive ColorTrue II imaging system combines superior processing, a fast warm-up LED lamp, and Epson MatrixCCD technology for enhanced colors and pinpoint registration. Easy Photo Fix technology offers one-touch restoration for faded color photos and negatives -- plus automatic dust removal. And, LaserSoft Imaging SilverFast Ai software is also included.

- Professional large-format scanning - accommodates reflective media up to 12.2" x 17.2".
- Extraordinary image quality - 2400 x 4800 dpi resolution, Micro Step Drive technology and a 3.8 Dmax for brilliant clarity and detail.
- Enhanced color with the ColorTrue II imaging system - combines superior image processing, a fast warm-up LED lamp, and Epson MatrixCCD technology for bold, vibrant scans.
- One-touch color restoration - Epson's exclusive Easy Photo Fix technology restores faded color photos in a snap and offers automatic dust removal.
- Batch scanning for increased productivity - scan multiple printed images at one time and save files to a PC or Mac.
