

estefold 4210

Digitally controlled folding system

Versatile automatic offline folder for fanfold and cross-fold at one pass. The folder can be linked to the tab applicator. Perfect finishing for long runs.

Application

High precision folding of drawings, plots, copies and blueprints, ideal for medium to high print volumes. This folder can serve as central folding device for several print departments. It handles all document sizes up to 36.6" width and 19.6 ft length. Documents up to 8.2 ft may also be cross folded to A size.

Easy to use

Packet folding with or without a tab is easy. Just touch the button to produce your precision folding, at any speed. The reliable estefold 4210 will make light work of long runs — at high quality.

Ergonomic comfort

You will appreciate the benefits of ergonomic design on every folding job, not just on long runs. For example, the manual feeding table and the conveyor delivering the folded documents are at a convenient height — no bending required. As an option the feed table can be folded down in order to save space.

Fully finished output

Every finished item is delivered slightly offset on the conveyor with the title block facing upwards, with no sorting action being required of the user.

ES-TE BERLIN / estefold 4210

Copies and drawings folded precisely to the millimeter

■ Control:	offline	■ Paper weight:	16 – 28 lb Bond
■ Online interface:	no	■ Stacking:	up to 50 E
■ Paper feed:	manual	■ Panel width:	7.5", 8.5", 9"
■ Folding speed:	53 ft/min	■ Filing margin:	1"
■ Folding method:	roller + blade	■ Variable feed height:	34" feed table
■ Folding programs:	8 fanfold/2 cross fold	■ Dimensions (l x w x h):	56.7" x 65.8" x 42.7"
■ Folding:	DIN 824/ANSI/Arch*	■ Power V/Hz:	115/230V, 50/60 Hz
■ Flat sheet stack:	no	■ Power A/V:	10 A/ 6 A, 115/230 V
■ Paper length:	8.3"/16.5" – 19.6 ft	■ Weight:	550 lb
■ Paper width:	11" – 36.6"	■ Tab applicator:	option

Menu-driven: eight folding programs

Safe operation

Selecting the required folding formats is clear and easy. Programs 1 to 8 are selected via the arrow keys. The corresponding package and filing edge is displayed for each program number. Incorrect folding is impossible.

Eight formats at the press of a button

The eight folding programs can be individually programmed within the following ranges:

- **Package width:** 7.5", 8.0", 8.5", 9.5", 10", 11", 12"
- **Filing edge:** 1"
- **Cross fold:** 11", 12" (adjustable)

The values entered are of course saved after the folding machine has been switched off and can be recalled at any time.
